20px horizontal and vertical space between cards

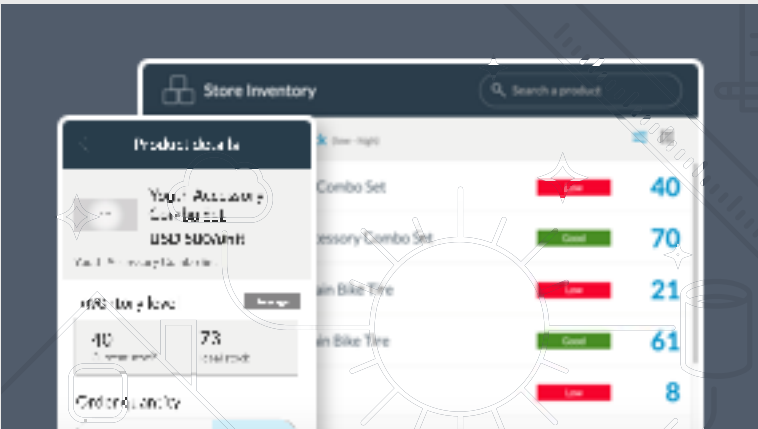

10px minimum padding between card and page margin

NOTES FOR VIEWPORTS 960px AND LARGER:

- Gallery cards operate independently of page layout column grid (sizes are fixed and do not resize with layout columns)
- Cards reflow left to right, top to bottom as space allows
- Gallery is centered horizontally in page
- All cards should have the same width and height: width is fixed and height is determined by the card with the most content

10px minimum padding between card and page margins

shows reflow/positioning of cards at smaller viewport width

20px horizontal and vertical space between gallery cards

10px minimum padding between card and page margin

NOTES FOR VIEWPORTS 960px AND LARGER:

- Gallery cards operate independently of page layout column grid (sizes are fixed and do not resize with layout columns)
- Cards reflow left to right, top to bottom as space allows
- Gallery is centered horizontally in page
- All cards should have the same width and height

shows reflow/positioning of cards at smaller viewport width
